

MY DOCTORATE EXPERIENCE

CEREN GURKAN

PhD, Erasmus Mundus Computational Mechanics

Universitat Politecnica de Catalunya

OUTLINE

- Who am I?
- What am I doing in Barcelona?
- Why did I come here?
- What are the benefits of living here?
- Was it always rainbows and butterflies?
- My recommendations and future scope

- Bsc Civil Engineering
- MSc, Erasmus Mundus Computational Mechanics
- PhD, Erasmus Mundus Computational Mechanics

WHY???

REASONS

- To fly with my own wings
- To achieve something different, something better
- To develop new perspectives on academic subjects and real-world issues
- To rise my knowledge, not only academically but also culturally i.e. achieve personal growth

Benefits??

- Watch Messi alive 😊
- Enlarge professional web
- Met with precious people from all around the world, now I have lifetime friendships
- Became a world citizen, have travelled around Europe
- Have learned a language
- Have learned a different culture
- Have learned myself

Obstacles??

- Language
- Surviving on my own
- Home sickness

Recommendations

&

Future Scope
